Summary

MERN Stack Developer building responsive, scalable, and high-performance web applications using React, Next.js, TypeScript, Tailwind CSS, Node.js, Express.js, and MongoDB. Passionate about crafting intuitive user experiences, writing clean, maintainable code, and transforming ideas into impactful digital products.

Experience

Full Stack Development Tierce India	May 2026 – Present Ahemdabad, India
– Worked as a Full Stack Developer Intern at Tierce India, building scalable web applications, integrating RESTful APIs, and delivering responsive, production-ready solutions.	
Frontend Developer Unified Mentor	July 2025 – Oct 2025 Remote
– Worked as a Frontend Developer Intern at Unified Mentor, developing responsive, user-centric web applications using modern frontend technologies with a focus on clean UI, performance, and seamless user experiences.	

Education

Institute of Advanced Research - Gandhinagr Under Graduate Program – B.Tech Computer Engineering	Aug 2024 – Present
---	--------------------

Projects

NS Virtual Lab Developed a production-style MERN virtual physics practical platform with React Flow–based circuit simulations, Express.js REST APIs, and MongoDB. Implemented drag-and-drop wiring, automated experiment validation, and responsive UI to create an interactive, scalable learning environment.	MERN STACK
Mood Detector & Activity Recommender Developed an AI-powered mood detection web application that analyzes emotions through real-time facial recognition and text-based conversations. Integrated DeepFace, Hugging Face Transformers, and a locally hosted Mistral 7B model via Ollama to deliver personalized activity recommendations while ensuring complete user privacy through on-device processing.	Python · Flask · DeepFace · Ollama · PyTorch
E-Commerce Website Developed a full-stack e-commerce platform using the MERN stack, featuring secure user authentication, product catalog management, shopping cart, order processing, and responsive user interfaces. Integrated RESTful APIs and MongoDB to deliver a scalable, high-performance shopping experience with clean architecture and modern design.	React.js · Node.js · GitHub Actions · Express.js · MongoDB · Tailwind CSS

Skills

Languages & Tools: C++, Python, JavaScript, TypeScript, SQL, MongoDB, React.js, Node.js, Express.js, Streamlit, Flask
AI & ML: RAG Pipelines, Multi-Agent Systems (LangGraph, CrewAI), LLM Fine-Tuning (PEFT/LoRA), NLP, Deep Learning, Time Series Forecasting

Certifications

PW Skills Full Stack Developer Course Certificate
PW Skills Decode C++ Course Certificate
